Dear Don:

I am enclosing two of your recent invoices covering items which cannot be identified under the contract, except for the third item on No. 24812.

Please review these invoices and submit your proposals for the new items in order that the contract may be brought up to date.

It would help us in identifying invoiced items if you would specify the item number, schedule number and amendment number to which they refer in the contract.

Your new proposal should also include any other new items on which you can quote prices at this time. As soon as the contract amendment is executed, your invoices for delivered items thereon should be resubmitted.

Regards,

George
